

July 13th (Wed)
10:30-12:00

Room 1-18,
Lec. Hall 1,
Fuchu.

Public Lecture
presented by LOG & LGP, TUAT

Dr. Cecilia Erickson

Marine plastic and microplastic pollution

1. General Introduction of microplastics
2. Size selective feeding by Myctophid fish changes microplastic sea-surface abundance near Macquarie Island
3. Characterization of beached microplastics to 10 mm from subantarctic island (Macquarie Island).

■ Organizer: Laboratory of Organic Geochemistry (LOG) & Leading Graduate School Program (LGP)

■ Participants: All those who interested in are welcome.

■ Language: English

■ Contact: LGP - Fuchu leadag(at mark)cc.tuat.ac.jp 042-367-5618

* This lecture is held as GCFP-1 Course of LGP.
